June 5, 2018

Our customers have given a lot of **ProstaGenix reviews and feedbacks**. They are coming in as fast as the prostate pills are being purchased. We are excited to share that **our customers are satisfied** and are finding it effective to easing prostate problems. Our team believes in this ProstaGenix product so much that we are not surprised at this positive reaction. It is overwhelming, nevertheless. Below is a small collection of reviews that we want to share with you. Kind in mind that we are highlighting the different ways that our prostate pill has helped customers.

## Staff Picked Unique ProstaGenix Reviews

---

Since some problems are common so we don't want to share repeated reviews of that common problem. These customers have been using ProstaGenix and are loving it since it has helped with their different prostate problems.

+ **Here's a ProstaGenix review by Larry from Queens New York with a prostate problem**

**that has caused him to constantly seek the bathroom. It's tiresome and time consuming to always having to run to the bathroom since he's unable to empty his tank each time.**

*Prostagenix has proven to be a dream come true for me. Prior to using these pills, I suffered from frequent and urgent need to go to the bathroom. Within a few weeks of taking Prostagenix pills, this urgent and frequent use was halted and now I am able to sit through long meetings and sleep all night without having to seek urinary relief. Thanks to an article by Larry King, I stumbled upon and to Prostagenix, my life has returned to normal. Warm regards.*

**+ This ProstaGenix Review is by James from Virginia who can't get a good night sleep because he too is having to visit the bathroom throughout the night. He's also seen improvements in his romantic life as well after using ProstaGenix.**

*Thank you Prostagenix for finally putting a supplement out there that really does what it advertises. I am a sixty-five year old man who was having trouble urinating and also getting up in the middle of the night to go. My doctor prescribed Flomax for me but it didn't help. In January I saw a program with Larry King advertising Prostagenix and decided to give it a try. I initially purchased a 90-day supply and took three a day as per bottle instructions. After about three weeks my problem cleared up so well that I reduced taking the pill to one a day. I have been taking one a day ever since and I am just elated at how well I feel. I don't have any problem going to the bathroom, and I haven't got up in the middle of the night to go in months. When I go, the velocity is as strong as it has been in many years. It has also helped in the intimate way as well. Thank you Prostagenix for such a wonderful product. I strongly recommend it to all you older guys out there who have the same problem that I once had!*

**+ Daniel from California says that he wishes he had found ProstaGenix sooner.**

*Over the years, I have taken several different types of prostate supplements. I have been taking Prostagenix for about six months. I find this product to be far superior over all the other prostate supplements that I have taken. It's not even close. I am thoroughly impressed with Prostagenix – no more getting up late at night or early morning. I feel as though my bladder has been completely empty and as result will continue to re-order Prostagenix.*

**+ Ron in Wisconsin has a good example of the saying ‘different results may vary for different people’. We’re happy for Ron for seeing results right away!**

*I have tried ProstaGenix for (30) days and have noticed an improved urinary flow with reduced urgency, at 65 I now have better sleep patterns. I like this product because it has a natural vitamin and mineral blend of ingredients. Because of my experience with ProstaGenix and the high number of excellent (5 star) customer reviews I have faith in this product above what I have used in the past so I’m reordering (3) bottles rather than (1).*

**+ Thanks Bob for sharing your journey. Sometimes the prostate problem doesn’t have to be big for men to start taking ProstaGenix for comfort.**

*Hi, Bob Moody here, I have been using ProstaGenix for 6 weeks now. When I started using the product I was having difficulty urinating, had some discomfort and was getting up 4 or more times every night. I saw my urologist to make sure there was nothing medically wrong with me. After different tests were performed the Doctor told me it was typical prostate activity for my age. I researched ProstaGenix and liked what I read. I took it as directed. I noticed a difference after about 3 weeks. The discomfort decreased, my urine flow was increased and was getting up only 2 times per night. I am very satisfied with your product and would recommend it.*

**+ Here’s a story from Gregg in Alaska who has to go through a lot to find out he has prostate cancer. We’re very happy you started using ProstaGenix and that you’re now feeling so much more in control. We’re on this journey with you, for sure!**

*Early last year I started having problems with urination. I was fairly sure it was due to my prostate because a few years ago I was diagnosed with early stage prostate cancer and my urologist was checking it every six months. I informed him of my difficulty and he gave me medication to relax my lower bladder valve. This had a side effect I was not happy with so I discontinued it and informed my doctor. He didn't seem to have another option. I then heard of saw palmetto and gave it a try. After two months with no relief I stopped using it. I went to the internet and found Larry King's video on Prostagenix and thought what the heck I'll give it a try. I bought a bottle of Prostagenix to try it myself for a month. In a couple of weeks I noticed that the urgent need to urinate frequently had improved.*

*In the third week I noticed that the difficulty of urination had eased. Everything was not perfect, but much improved. Because of the reduced need to urinate frequently and the less "back pressure" on my system I have now purchased a five month supply of Prostagenix and am confident that I have made the right choice. I fully expect that continued use will improve my problems and has already eased my mental stress of always looking for a bathroom. Thanks Prostagenix.*
